HIU is an exceptional school that supports and uplifts each student individually. The curriculum allowed me to look deeper into the world of education. We discussed all the important aspects of becoming an administrator and the reality of what the title entails during current events. This was not a completely theory based, rather it offered real-world experiences and challenges were to address. During my time in the program, I was required to submit three portfolios to the state in the time span of one year. HIU offered resources, classes, counselors, and supervisors to guide us through the process. If I had questions regarding the portfolio or any of the classes, they would offer not only answers, but resources to support their statements.
